

Publishing Packages

Thank you for choosing Sonny Dean Publishing for your publishing needs. We are committed to helping you work through the barriers that get in the way of sharing your story. Often times those barriers include not knowing where to start or what to do. Don't worry, we got you covered, and we'll teach you along the way.

We've put together three packages based on your level of need and the size of your book. You can add different a-la-carte services to each package as needed. Check out the following pages to learn more.

STANDARD

Basic editing up to 80 pages

PREMIUM

In-depth editing up to 160 pages

PLATINUM PLUS

Editing + marketing for 161+ pages

STANDARD

starting at \$750

Includes the following:

- **Books up to 80 pages:** including forward, acknowledgements, introductions, and outro pages.
- **Basic Editing:** includes grammar, spelling, punctuation, and format consistency. This is recommended for experienced writers and authors. Beginning writers should consider in-depth editing.
- **Copyright:** filing your book with the U. S. Office of Copyright to be stored in the Library of Congress. This legally protects your work in the case of a dispute. You'll receive a certificate once accepted.
- **Formatting:** adjusting your book to proper book printing size including appropriate trim, bleed, and gutter measurements. Also includes page headers, numbering, and chapter page setup.
- **ISBN:** the official number assigned to your book to make it searchable nationwide. Having an ISBN associated with a publisher gives you a little more backing and prestige than the self-publishing route.
- **Distribution Setup:** we will walk you through setting up your book on a distribution platform: KDP (Amazon) or Lulu for electronic sales.

Ready to publish?

PREMIUM

starting at \$1,200

Includes the following:

- **Books up to 160 pages:** including forward, acknowledgements, introductions, and outro pages.
- **In-depth Editing:** includes content development, grammar, spelling, punctuation, and format consistency. Editors will leave suggestions to be discussed in an editing review meeting at the completion of editing services.
- **Copyright:** filing your book with the U. S. Office of Copyright to be stored in the Library of Congress. This legally protects your work in the case of a dispute. You'll receive a certificate once accepted.
- **Formatting:** adjusting your book to proper book printing size including appropriate trim, bleed, and gutter measurements. Also includes page headers, numbering, and chapter page setup.
- **ISBN and Barcode:** the official number and code assigned to your book to make it searchable nationwide. Barcodes position your book to be sold in bookstores, and having an ISBN associated with a publisher gives you a little more backing and prestige than the self-publishing route.
- **Distribution Setup:** we will set up your book on two distribution platforms: KDP (Amazon) and Lulu for electronic sales.
